DK : First Dinosaur Encyclopedia before purchasing it in order to gage whether or not it would be worth my time, and all praised First Dinosaur Encyclopedia:

0 of 0 people found the following review helpful. A good, general overview for childrenBy StephanieThis was a gift, but I looked through it before giving it. This is a really cool book, and perfect for the age of the child I was giving it too. It's informative without being too much information to digest. There are tons of pictures and cool facts. I think that it covers a very good and wide range of topics within the world of dinosaurs. There isn't much depth to the information, but that isn't needed for this particular book.0 of 0 people found the following review helpful. DinoBy Patricia I.Great book and prompt service

Go back in time with First Dinosaur Encyclopedia.A delightful first reference book about dinosaurs for young paleontologists, this updated edition of First Dinosaur Encyclopedia takes readers on a journey to the prehistoric world

of dinosaurs. Find out everything there is to know about T. rexes and triceratops, see different dinosaur habitats, learn amazing facts, and get close to modern-day fossils. Children can test their dinosaur knowledge with quizzes, including a "Where in the World" map quiz that places dinosaurs in the right locations. Packed full of engaging photography and easy-to-follow text, First Dinosaur Encyclopedia brings history to life.
