**Ben Denne : First Encyclopedia of Seas Oceans (Usborne First Encyclopedia)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised First Encyclopedia of Seas Oceans (Usborne First Encyclopedia):

1 of 1 people found the following review helpful. Seas Oceans By Shopping Grandma Purchased for grnddtr--she LOVES the usborne encyclopedia books--on any science or nature topic--these books can grow with the child--hers is now about a yr old and she is still reading it and absorbing information! At times I have suggested reading a story-type book, but she wants the encyclopedias instead! She received book at age six--puts it in her backpack when she bitty baby are going on a "field trip". 0 of 0 people found the following review helpful. Five Stars By Tiffany Shough My daughter loved this book! Very engaging and colorful! 0 of 0 people found the following review helpful. An enchanting book! By FAMMY 4-year-old I sat with this wonderful book, reading, discussing learning for a full 1-1/2

hours!! (How long will your 4-yr-old wiggleworm sit still?). He carries it around demands rereads from everyone. A marvelous enchanting learning tool. Buy it!

This fact-packed introduction to the wonders of the sea covers subjects including coral reefs, whales and dolphins, undersea exploration and environmental threats. With internet links to exciting websites, including a virtual tour of the seabed and downloadable images of weird and wonderful sea creatures, easy-to-read text and superb photographs.
