Worth itBy UCstudentLa fontica y la fonologa es algo muy complicado que si uno no la entiende desde el comienzo, va a tener problemas. Este libro explica los conceptos en una manera simple, sin quitarle lo complejo, la cual el estudiante entiende el material. Lo unico negativo del libro que yo dira es que todo est conjunto, en un prafo, entonces tiene que poner atencin. Con los documentos suplementarios, el estudiante tendr mucha practica para comprenderlo.0 of 0 people found the following review helpful. Five StarsBy itYes, it was good

Fontica y fonologa espaolas has been completely revised and updated for the fourth edition. The text serves as an

introduction to the phonetics and phonology of the Spanish language and aids English speaking students in acquiring a (semi-)native pronunciation, while minimizing their foreign accent. Additionally, the text offers an introduction to various phonetic dialects of Spanish in the Americas and Spain.
