Zoe Erotopoulos, Dodi-Katrin Schmidt, Michelle M. Williams, Dominique Wenzel : French For Dummies, with CD before purchasing it in order to gage whether or not it would be worth my time, and all praised French For Dummies, with CD:

21 of 21 people found the following review helpful. Very useful for my purposes (reading not speaking)By ColdSteelFanI can somewhat understand the negative reviews of this book, since my first impression of it when I picked it up in a bookstore were not too favorable. Then I happened to check the book out of the library, and the more I read it, the more I liked it, and I decided that I wanted a copy of my own, since I tend to write all over books that I actually use. I have been trying to learn enough French to read at least to some degree books (in French) I acquired for a particular hobby interest of mine. In this particular area, the most comprehensive and useful books are in French. Use of online translators and misguided use of a French-English dictionary helped some, but there was a great deal I was still confused about. Try looking up "Il y a" and see what you can find! French for Dummies cleared this up. "Il faut"

appeared quite often in what I was reading. I kind of figured out what it meant, but French for Dummies made the real meaning very clear. I have found many presentations in this book extremely useful, and the arrangement that many complain about, for me, provides useful contextual clues that a more "normal" presentation is missing. If you think you can achieve a particular goal (reading French in my case, speaking for others) by just using this book, you are fooling yourself, but I don't think it is the book's fault. I also got French Essentials For Dummies (For Dummies (Language Literature)) from , and these together with Intermediate French For Dummies (acquired elsewhere) have collectively been very helpful to me, each with a different style and level of presentation. 0 of 0 people found the following review helpful. Not for the beginner By R. Campo I'm headed to France and wanted to at least learn some conversational French. I had purchased Italian for Dummies when I went to Italy and it was great. French for Dummies, not so much. I guess it assumes you know some French because the first lesson on the CD, they're off and running and you have no idea what they're talking about...hey, all I want to know is how do I order a cup of coffee. There are apps available for your phone that do a much better job. 0 of 0 people found the following review helpful. outstanding and easy ! ..By marc logan outstanding and easy . thanks ! ..

The fast, informal way to learn to speak French - with integrated audio clips throughout. Listen to pronunciations and conversations. French is a beautiful language but quite difficult to learn.
