By far it is the best teaching/learning program for learning French and about French culture. I am so glad that the third edition was completed and published after the death of Pierre Capretz. I have given, and still do give this program my highest praise. The new edition is well worth having as they have done a superb job in updating all

the materials even though the video, of course, cannot be updated. (I taught French for 40 years.) 0 of 0 people found the following review helpful. French in Action is widely recognized as a model for multimedia foreign-language instruction. Now revised for a new generation of French learners, the third edition includes new, contemporary illustrations and updated cultural and linguistic information for today's students. In use by hundreds of colleges, universities, and high schools, French in Action is a powerful educational resource. Part 2, for which the workbook is now available, guides students through the intermediate level of French language acquisition.
