wish I had this resource as an English-ish major, back when I was totally panicked about my future and questioning the validity of my degree. Alyssa was gainfully employed almost immediately after graduating with her English degree, and in the few years since has begun to build a veritable empire this girl knows exactly what she's talking about. "From Graduation to Career Ready in 21 Days" breaks an enormously daunting application/preparation process into manageable, bite-sized pieces. This book reads like an encouraging email from an older sister or mentor there is so much positivity woven into sage, tried-and-true advice, and the pages turn quickly. A must-read for anyone soon graduating with a degree in the arts or anyone looking for a new job of any kind, even 15 years out of school. 0 of 0 people found the following review helpful. Alyssa is the career coach I always wanted! By Grace I wish this book existed when I was a senior in college! Transitioning from the college bubble into the real world is one big confusing and scary mystery, especially for liberal arts majors. UNTIL NOW. Seriously, Alyssa is the career coach I always wanted! She walks you through exactly how to leverage the skills you've worked so hard to earn in college and make them work for you in the job search. Her advice is practical, insightful and most importantly, actionable. You'll walk away from every chapter knowing exactly what to do and feeling empowered and excited to move onto the next chapter of life. I would recommend this book not only to English majors, but anyone with a liberal arts degree. 2 of 2 people found the following review helpful. Dear English Major By J. Palmer I'm only a few pages into the book but I love it as the book is straight forward and insightful. I visit the authors web site and purchased the book based on everything she has posted there. I've used her information for job applications and while interviewing. Each time the information has helped me greatly. Looking forward to finishing the book this week!
