Whether you agree with the Word-Faith doctrine or not, it has undeniably left in it's wake countless shipwrecked believers. If you are among those whose faith has been shaken, or even destroyed, this will be enlightening for you. If you are riding the crest of the "prosperity" and "name it and claim it" doctrine, you should read also. Examine your faith, and see if you are truly standing on the solid ground of scripture.4 of 4 people found the following review helpful. Very good Christian readBy HaroldI know that many Christians have issues with people being healed supernaturally. Some believe God doesn't heal anymore, some believe it's an individual's fault if a healing doesn't occur. I'm not getting into that argument, I just say read this book and pray about it :0)0 of 1 people found the following review helpful.
