About the For the GENIUS Series The For the GENIUS series is a line of easy-to-understand books about literally any topic that people want to learn. GENIUS books are written for beginners, and those who are rusty and want a refresher. Readers receive a solid foundation in the subject in a step-by-step progression from the fundamentals to more advanced aspects. They will enjoy the fun, upbeat, and first-person writing style. They will even find themselves entertained by the occasional sprinkled-in humor, and look forward to sidebars that enhance the discussion. Though written in a conversational style, GENIUS books are thorough and authoritative treatments of the subject. They are written by experts in the subject who want to share with others what they've learned. We Think Highly of Our Readers, Obviously! Though we admit to a bit of tongue-in-cheek fun in referring to our readers as geniuses, we do in fact think highly of them. We know that they are intelligent and knowledgeable about many subjects, just not necessarily on the subject of the GENIUS book they've just picked up. They know that, despite the title, our books are for pretty much everyone, not just Einstein though even some Einsteins will enjoy our books, too! We celebrate the fact that our readers are inspired to learn a subject enough to pick up one of our books, which in turn inspires us to ensure, through plenty of perspiration at every step, excellence in producing them. Pure genius!
