Irene E. Schoenberg, Margaret Brooks, Margot F. Gramer, Daniel Pittaway : Future 3 package: Student Book (with Practice Plus CD-ROM) and Workbook before purchasing it in order to gage whether or not it would be worth my time, and all praised Future 3 package: Student Book (with Practice Plus CD-ROM) and Workbook:

1 of 1 people found the following review helpful. The books do not have access to the source code ...By Zwicky DenisThe books do not have access to the source code (access card) are needed for enrollment will pearsonelt on the site, I was sure that he will be there, and now we can not engage in the computer lab and we nunzho to buy access to this course. In college, the book sells access to this course. We are very upset, it costs extra.4 of 4 people found the following review helpful. One StarBy JUNFENG JIAOnly a homework book, very angry0 of 0 people found the following review helpful. ... Textbook Series are appropriate for English learners who would like to focus on everyday EnglishBy AniThe Future Textbook Series are appropriate for English learners who would like to focus on everyday English, rather than academic English. It uses a communicative approach of learning as opposed to a grammar-based one. There is some grammar included, but the book uses integrated skills to help students handle common situations they may encounter. The activities are kept brief and varied, so it's not boring. I recommend this textbook for classroom instruction or self-study.

Future's research-based, comprehensive curriculum empowers learners with the academic, workplace, and media literacy skills they need to get ahead.Future prepares students with 21st century skills, helping them transition to

further education or career training. Student book with Interactive Practice Plus CD-ROM enables learners to persist by providing multiple pathways to learning. Built-in multilevel instruction ensures the success of every student. The Practice Plus CD-ROM included with the Student Book is an extraordinary tool for individualizing instruction. It allows students to direct their own learning, working on precisely what they need and practicing what they choose to work on as many times as they like. In addition, the CD-ROM provides all the audio files for the book, enabling students to listen as they wish to any of the material that accompanies the text. Future is a six-level, four-skills course that empowers learners with the academic and workplace skills they need to get ahead by helping them transition to further education or career training.

About the Author Irene E. Schoenberg has taught ESL for more than two decades at Hunter College's International English Language Institute and at Columbia University's American Language Program. She has trained ESL and EFL teachers at Columbia University's Teachers College and at the New School University. She has given workshops and academic presentations at conferences, English language schools, and universities in Brazil, Chile, Dubai, El Salvador, Guatemala, Japan, Mexico, Nicaragua, Peru, Taiwan, Thailand, and throughout the United States. Ms. Schoenberg is the author of "Talk about Trivia"; "Talk about Values"; "Speaking of Values 1"; "Conversation and Listening;" "Topics from A to Z "Books 1 and 2; and the basic level of "Focus on Grammar," Second Edition. She is the co-author with Jay Maurer of the "True Stories "series and the introductory level of "Focus on Grammar," Third Edition. Ms. Schoenberg holds a master's degree in TESOL from Columbia University.

Margaret Brooks , Senior Advisor, Business Unit Strategy for the Global Presales Organization and former Vice President, Customer Success, joined CA Technologies in 1999. In the Customer Success organization, she was responsible for the development and vitality of the CA global communities representing a cross section of product and solution communities. This team continues to lead transformation programs to improve customer experience and supports the business requirement for continued enhancements to the online customer experience. In her career at CA Technologies, Brooks has held many executive positions in sales, technical sales, and business development. She has also specialized in governance, risk, and compliance and was involved with thought leadership, publications, and solution development in this area for several years. She published articles in WSTA magazine, KM World, and SC Magazine on the topics of governance, risk, and compliance. She has been nominated for the CEO Award for her contributions in this area. Brooks draws on more than 35 years of experience in the IT industry. Prior to joining CA, she led consulting engagements at the data warehousing division of Platinum Technologies. Before that, she held management positions in data warehousing and information resource management, focusing primarily on companies in the healthcare and insurance areas. She holds a Bachelor of Science degree in Health Education from the University of Alabama.
