Brandon Royal : Game Plan for GMAT Math: Your Proven Guidebook for Mastering GMAT Math in 20 Short Days before purchasing it in order to gauge whether or not it would be worth my time, and all praised Game Plan for GMAT Math: Your Proven Guidebook for Mastering GMAT Math in 20 Short Days:

0 of 1 people found the following review helpful. Two Stars By Bidan S. It didn't meet my expectations. 0 of 3 people found the following review helpful. Don't waste your money on this one- "pure marketing gimmick" By Aditya You will get the information mentioned in this book, on any blog written for GMAT math. Thank god I bought the cheap kindle version (\$5.99). Don't waste your money on this one- "pure marketing gimmick".

GAME PLAN FOR GMAT MATH will help readers develop the skills and mindset needed to score high on the quantitative section of the GMAT exam. This book contains the excerpted math chapters on Problem Solving and Data Sufficiency as taken from the parent ebook/paperback titled Game Plan for the GMAT: Your Proven Guidebook for Mastering the GMAT Exam in 40 Short Days.

"This author's approach enabled me to increase my score from 650 to 730. I believe that Brandon's unique way of categorizing each type of question, giving insightful tips to master these problems, as well as the detailed analysis for each set of problems were key factors in my cracking the test. Moreover, I found in his materials, problems that I did not find anywhere else and which were critical on the D-day when answering a few extra questions right made the difference between a good score and an excellent one." Cdric Gouliardon, Telecom Specialist; INSEAD graduate
From the Publisher
Whether you're a candidate already enrolled in a test-prep course or are undertaking self-study, this book will serve as a rigorous skill-building study guide to help you conquer the quantitative section of the GMAT exam.
From the Author
"Chance favors the prepared mind." Studying for the math section of the GMAT exam requires some 50 hours of study time. This book's content is conveniently divided into topics, which require two to three hours of study time per day. As a practical matter, total study time will vary between 40 to 60 hours for the entire 20 days.
