Harm J. de Blij, Jan Nijman, Peter O. Muller : Geography: Realms, Regions, and Concepts before purchasing it in order to gauge whether or not it would be worth my time, and all praised Geography: Realms, Regions, and Concepts:

9 of 9 people found the following review helpful. Great Geography Textbook By Brooke Smith First of all, at the time of my purchase (July 2011), I received the full and correct copy of this book, not the Rasmussen College book that previous reviewers have stated. This book is a great resource for my Geography class. In some of my college courses, the textbooks have been nuisances; the sort you only buy because your professor requires you to. In the case of this textbook, it really does add to the class. It is up to date with accurate information and research about conflicts and maps, and the illustrations and graphics add a lot to aid with reading comprehension. This textbook is worth buying! 0 of 0 people found the following review helpful. Best textbook ever! By Michele This textbook was so much more interesting since it was interactive. I wish all textbooks were available in Kindle format and interactive. 0 of 0 people

found the following review helpful. Useful!!!By Lynette KlishThe book was very organized. I used it quite often. Received an A in GEO !

Geography: Realms, Regions, and Concepts, 16th Edition Binder Ready Version maintains the quality you've come to expect from the foremost author team in geography. It continues to showcase authoritative content, outstanding cartography, currency, and flexibility in a technology-rich package. Topics range from the Arab Spring to China's aggressive expansion into surrounding regions. This new edition aims to familiarize the student with the rapidly changing world around them. This text is an unbound, binder-ready version.
