Joel Wainwright : Geopiracy: Oaxaca, Militant Empiricism, and Geographical Thought before purchasing it in order to gage whether or not it would be worth my time, and all praised Geopiracy: Oaxaca, Militant Empiricism, and

Geographical Thought:

Geopiracy is a study of the 'Bowman expeditions' a project through which geographers, with funding from the US Army, are mapping the 'human terrain' of foreign lands. Wainwright offers a critique of human geography today that draws on contemporary social theory to raise unsettling questions about the nature of geography's disciplinary formation.

About the Author Joel Wainwright is a human geographer who teaches political economy and social theory at Ohio State University. He has published 32 research articles and book chapters on diverse topics. His first book, entitled *Decolonizing Development: Colonial Power and the Maya*, won the Blaut award in 2010 and has been assigned and taught at more than ten research universities.
