Each card is numbered so I can put them back in order when I'm done. The categories are Useful Adjectives, Sports and Entertainment, Food/Restaurant, Clothes/Shopping, Bank/Money, School/Workplace, Family/People, Habitat, Body/Health, Travel/Directions, Weather, Calendar/Time, Numbers and Measurement, Colors, Basic Greetings. I also like how grammatical notes are sometimes added to clarify something. For example on the card for the word "which?" it says "welcher [sing.]". Plurals are also added which is nice. A good purchase.7 of 7 people found the following review helpful. Nice, but confusing at the start.By KarenPerryI quite like how this displays all the correct pronunciation and ways to say the words, however I think this list does get bland after a while of repeating the same things, not to mention it's ordered in a slightly confusing way. The list is organized so I can't quite find a word I want to with out some struggle, however after a bit you get the memorization down and you can find them with a glance. I would say this is a very useful tool for people just starting to learn this language.2 of 2 people found the following review helpful. Learn that vocab!By slavichoyI had a set of flash cards years ago, but they were nothing like these. These are above and beyond. I love how theyre indexed, and even the sides of the box are used as instructional language tools. Very useful.
