Binding: Map 1 pages Founded in 1915 as the Cartographic Group, the first division of the National Geographic Society, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world. All proceeds from the sale of National Geographic maps go to support the Society's non-profit mission to increase global understanding and promote conservation of our planet through exploration, research, and education. | File size: 53.Mb

National Geographic Maps - Reference : Germany Classic [Laminated] (National Geographic Reference Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Germany Classic [Laminated] (National Geographic Reference Map):

1 of 1 people found the following review helpful. Beautiful and InterestingBy CustomerIt's a beautiful map. I bought it to help me with genealogy research. Not only does it have Germany but the parts of the Netherlands and France that my ancestors came from. It is detailed enough I can find their home towns. I didn't know that one of my ancestors lived near the Black Forest or that one came from East Frisia. 3 lived near each other in the Netherlands. It has a lot of interesting information. I have it on my wall and study it daily.1 of 1 people found the following review helpful. Nice detailed mapBy JKAdamsPerfect size to see some of the common small towns. Serves as a perfect gift for U.S. military serving in Germany or for German nationals.6 of 6 people found the following review helpful. Map of GermanyBy Gabby WilsonMap is detailed and the right size for pinning on wall. I use it for travel and genealogy. It's perfect for the size.

National Geographic's map of Germany is as attractive as it is functional. Rendered in the Classic style with colorful, clearly defined international borders, shaded relief, and easy-to-read fonts, this map includes thousands of place names. Major infrastructure such as airports, major roadways, canals, high-speed and passenger railroads, as well as oil fields and pipelines are noted. Coastal bathymetry on the North and Baltic seas is shown with depth curves and soundings. Coverage also includes Luxembourg and portions of Denmark, Poland, Czech Republic, Austria, Switzerland, France, Belgium and the Netherlands. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:1,375,000Sheet Size = 23.5" x 30.25"
