Kimberly Bishop : Get Down to Business and You'll Get the Job! before purchasing it in order to gage whether or not it would be worth my time, and all praised Get Down to Business and You'll Get the Job!:

0 of 0 people found the following review helpful. Get Down to Business and You'll Get the Job!By JamieA must-read for all job seekers! It is full of practical tips and myth-busters. I would recommend that anyone who is looking for a new job read this book before doing anything. As soon as I finished reading the book, I bought it as a gift for a friend who is also looking to switch his position. It's technical, but it still reads very easily. It's great to see the insight of an executive recruiter.0 of 0 people found the following review helpful. a must readBy Rita V. FoleyThis is a terrific book. I coach lots of people who are in-between jobs and this is one of the most approachable yet comprehensive books I've read. The author is an authority because she's been on both sides of the search, the job seeker and the recruiter. It's laid out well and has lots of great pointers and tips. Even if you think you have the job search process down pat, you'll gain a new tips and more.2 of 3 people found the following review helpful. Kindle EditionBy Reader MeeterThe book in itself has much to offer.However, when it comes to being able to read the examples and

appendices, the print is so small it is almost impossible to read even when the screen is on full page. It is also impossible to work with the book to create your own PREP or resumes, for example, using the samples as guides unless, of course, you happen to have 2 computers at your disposal. The book also contains several typographical errors which are distracting. When I contacted the author about another resource for the out of print paperback, she referred me to her downloadable e-version. That was not ordered simply because it is reasonable to believe the same problems would arise. Failure to keep the print for the above mentioned key items consistent with the book pages impairs the usefulness of the Kindle purchase.

ABOUT THE BOOK Kimberly Bishop's book *Get Down to Business and You'll Get the Job* offers advice to job-hunters in every sort of situation. Whether you are an experienced worker who has just lost a job or a newcomer to the work force, someone who is transitioning between jobs or hoping to change careers, her practical advice will help you get the job you want.

From the Back Cover Kimberly Bishop's book is a must-read, not only for those who are contemplating a new career, but for all individuals who want to present their abilities and accomplishments in the best light!" -Shelley Carson, PhD., Lecturer, Harvard University, and author of *Your Creative Brain: Seven Steps to Maximize Imagination, Productivity, and Innovation in Your Life*.
