Lindsey Pollak : Getting from College to Career Rev Ed: Your Essential Guide to Succeeding in the Real World before purchasing it in order to gauge whether or not it would be worth my time, and all praised Getting from College to Career Rev Ed: Your Essential Guide to Succeeding in the Real World:

three pages of bullets/notes! Some things I already knew and was going to suggest to her so it was nice to have validation but I learned a few new things myself. I would tell her to recommend this to all her friends in school but I think I'll wait until after she finds a job because the tips are so clearly spelled out that I think this book will be an advantage for her. I also appreciated the fact that she recommends the best way to use your parents as a resource. My favorite advice beyond the very important (lock down your social media sites now) and the very practical (add a signature line in your email) was Follow Every Rainbow. Now here's hoping with a graduation one semester early, four internships and this great book that she gets that very important first job on her way to enjoying her career as much as her father and I have enjoyed ours. 0 of 0 people found the following review helpful.
