Fred Rogers had such an amazing way of relating to children and this book is the perfect example of his ability to teach lessons of love and human kindness, both to the adult and to the youth. This book has some excellent ideas and teaching tools. I bought this book for my little grandchildren, but mainly to help their parents implement the concept Mr. Rogers has beautifully shared. LOVE IT!!!1 of 1 people found the following review helpful. Little book, big messageBy Professormom"... when I read the newspaper or magazines or see the news on television, I look for the people who are doing their best to help... not in sensational ways but in little

genuine ways that nourish neighbors' lives."~ Fred Rogers

It is a sweet book.

The notion that charity begins at home has never been easier to teach children than with this enchanting gift set based on the Jewish tradition of *tzadakah*, in which children save coins in banks for the less fortunate. Added inspiration for contributing to worthy causes comes from Emmy Award-winning television personality Mister Rogers, whose peaceful "neighborhood" has been a comforting presence in millions of homes for more than 25 years. In the book that accompanies *THE GIVING BOX*, Mister Rogers teaches lessons of generosity and charity through heartwarming fictional stories set in countries around the world. For children, he describes how good it feels to give to those less fortunate, and reveals how even one child's contribution can make a difference. For parents, he offers wise suggestions and practical guidelines on teaching children the moral lesson of compassion for others and the value of charity.

From Publishers Weekly  
Fred Rogers, the host of *Mr. Rogers' Neighborhood*, helps parents to teach children lessons of generosity and community with *The Giving Box*, illus. by Jennifer Herbert, designed to "create a tradition of giving with your children." A hand-size hardcover comes packaged with a small painted tin bank in which children can save coins to donate to the needy. The book contains fables from around the world that convey a tradition of giving (e.g., the Hebrew tale of "The Brothers," about two siblings who secretly help each other without the other's knowledge; Aesop's "The Lion and the Mouse"), as well as a letter to parents, a letter to children and instructions on how to use the box. Not just at Christmastime but year round. (Running Press, \$12.95 96p ages 7-up ISBN 0-7624-0825-1; Dec.)
