Toothpick Mecca!By dbuyzThis is a very exciting book for anyone who collects glass toothpick holders. I was impressed by how easy it is to look things up and the pictures are plentiful and good quality. It is a definitely MUST have for anyone who collects glass items. When purchasing this book, the one thing you do have to keep in mind is that there is not a lot of coverage of repros and new toothpick holders (such as the ones frequently found on eBay for lower prices) Mainly, this is a reference for true antique pieces from the late 19th and early 20th century. Keep that in

mind and enjoy this fabulous book!

Neila Tom Bredehoft and Jo Bob Sanford Our popular Glass Toothpick Holders is back in an all-new second edition. This unique book focuses on American-made glass toothpick holders, primarily those made of pressed glass. Once again organized by manufacturer, the book encompasses holders from a myriad of companies, including Adams Co.; Dugan; Fenton Art Glass; Hobbs, Brockunier Co.; New Martinsville Glass Manufacturing Co.; and Westmoreland Specialty Company. Original manufacturer's name, the popular name of the piece, dates, all known colors, size, current values, patent information, and other pertinent facts are provided for each toothpick holder pictured. Over 1,000 photographs and numerous line drawings, catalog pages, and original ads compose this exciting new edition. Not included in the first edition are sections on toothpick holders in metal holders, foreign toothpick holders, and contemporary toothpick holders.
