Dr. Anita Price Davis Ed.D., E. Davis, R. Fryer, Thomas C. Kennedy Ph.D., E. Klett, James S. Malek Ph.D., V. Rohatgi, Ethel Wood : GMAT CAT w/ CD-ROM-- The Best Test Prep for the GMAT CAT (GMAT Test Preparation) before purchasing it in order to gage whether or not it would be worth my time, and all praised GMAT CAT w/ CD-ROM-- The Best Test Prep for the GMAT CAT (GMAT Test Preparation):

22 of 22 people found the following review helpful. If I could give this book zero stars, I wouldBy O. LeeI bought around 6 books to study for the GMAT. This book was definitely one of the worst ones, if not the worst. The examples in the book were OK, but there is nothing new or above and beyond the Princeton Review or Kaplan books (both of which were much better than this book). Also, the CD did NOT work at all. When I called the helpline, I was always given some bogus excuse as to why nobody could help me. The CD would get to question 2 and cause a computer error. It was extremely irritating. My irritation was compounded by the fact that the person answering the phone at the supposed support line was totally unable to help me whenever I called. I was able to get a high score, but through using the Kaplan book and taking practive exams on paper. This book is a huge waste of time and money.

Includes the complete GMAT Test Prep book plus CD-ROM with CAT software (computer adaptive tests.) The

GMAT is offered as a computer-adaptive test, where the computer automatically "adapts" the test to the test-taker's performance. Questions get harder or easier depending on how the preceding question is answered. Scoring is based on the difficulty of questions answered correctly. REA's CAT software prepares students for this new computer adaptive test. The CD-ROM works on Windows and Macintosh computers. Suitable for any PC with 4 MB of RAM minimum, Windows 3.1, or 95, or 98. Any Macintosh with a 68020 or higher processor, 4 MB of RAM minimum, System 7.1 or later.
