I don't even know why is it still available.You can actually checkout reviews and all.It is not recommended by most of the gmat teachers.Don't buy!0 of 0 people found the following review helpful. Easy and useful bookBy Denis KuzmenkoI like the approach authors chose to provide a material in the book. It is easy to read and understand. Humor of the authors makes it really funny to memorize facts that were previously thought as boring .0 of 0 people found the following review helpful. Good book to Start withBy Arvind SekarThis is one of the best book to start with for Reading Comprehension. I went through all the chapters which covered almost everything which will be tested on real GMAT

The only book you need to ace the GMAT Critical Reasoning From the back cover of the book

"I endorse this one as well. Explains each question type really well. The division of SWAFE (strengthening, weakning, assumptions, flaw and evaluate) and non-SWAFE questions is a good way to categorize things. The question bank is pretty impressive as well.
