**Steven W. Dulan, Advantage Education : GMAT Exam Prep** before purchasing it in order to gage whether or not it would be worth my time, and all praised GMAT Exam Prep:

The GMAT Exam Prep provides a comprehensive text for studying for the GMAT test. This book takes each topic and provides numerous examples, explanations, strategies, and tips for both understanding the content of knowledge that the test covers, as well as in helping in preparing the student to score higher on the test. In addition to coverage of all topic areas, the book has an expanded topical review coverage on the Quantitative section, due to the fact that many students find they don't understand this topic very well. The book also offers specific strategies for answering various question types, reviews the psychology of testing, and provides a guide for understanding scores. Finally the book has

four full practice exams with detailed answers to all questions covering all topics areas.
