I spent 2 months going through the Manhattan series and then 1 month going through the OG. Going through practice questions and practice exams tied the concepts together and was a confidence boost. (Not at first. I struggled a lot.) 3 months of studying with the Manhattan series and OG, maybe 15 hours a week, no class, scored a 710. Pretty content with the score for the effort spent.4 of 4 people found the following review helpful. Look for missing pages before return period expiresBy A. SinghIt's a good question bank with actual retired questions from past years. However, the only reason I am giving a low rating is because off the 3 book set, Verbal one has around 100 pages missing. I believe by mistake they inserted Quant section twice and now I am missing most of RC section. Obviously the return window expired by the time I got to this specific section and now won't return.0 of 0 people found the following review helpful. Official Study guideBy Steve MartinThis set is a great way to get started studying for the GMAT. I used it more for the math section because some of the math and formulas I have not used since high school or college. Great examples and how to solve them. I am still studying so we will see how good they really are

soon.
