**Peterson's : GMAT Success w/CDRom 2003 (Peterson's Ultimate GMAT Tool Kit)** before purchasing it in order to gage whether or not it would be worth my time, and all praised GMAT Success w/CDRom 2003 (Peterson's Ultimate GMAT Tool Kit):

5 of 7 people found the following review helpful. Big disappointment By A Customer I bought this book along with a book from Kaplan and one from Princeton Review. This book was by far the worst of the three of them. I had high hopes. It was recommended by a friend who said you could try out an essay and get it scored right away online. It turns out they used to have this essay part but took it away this year. The rest of the book is OK, but not as good as the Kaplan book. Save your money....
