Ted Nugent : God, Guns, Rock 'N' Roll before purchasing it in order to gage whether or not it would be worth my time, and all praised God, Guns, Rock 'N' Roll:

1 of 1 people found the following review helpful. Read This and Wake Up Before It's Too LateBy carmenderNugent is a one off but solidly grounded in his views and beliefs. I totally agree with his ideas on making things better in this country. It is depressing how the bleeding hearts and the media have focused too much on the negative instead of accepting principles and values that have all but disappeared now. Ted's success as a parent and family man shines thru. Always after reality instead of numbing it with drugs, alcohol and video games he lives what is missing in our

lives. Not everyone will embrace hunting but as he says "get off the pavement" and reconnect with the wild. I greatly admire the man

By EclecticGood book, but be aware, this book is about Ted's political and personal beliefs, not about his music.

This book is brilliantly written and hammers home the truth in a way that nobody but Ted Nugent could do! It made me howl with laughter, cry with sadness, shake my head in disbelief at the "sheeple" of America, but most of all it made me think!! I am a gun owner, but not a hunter, and this book gave me a whole new perspective on the emotion and RESPONSIBILITY of true hunters. Ted brings the Spirit of the Wild to life and the love of family, the Constitution, and America to the forefront where they belong. I highly recommend this book!!

Rock and Roll legend Ted Nugent contends that a lot of what is wrong with this country could be remedied by a simple, but controversial concept: gun ownership.
