Arco : GRE/LSAT/GMAT/MCAT Reading Com (Arco GRE GMAT LSAT MCAT Reading Comprehension Workbook) before purchasing it in order to gauge whether or not it would be worth my time, and all praised GRE/LSAT/GMAT/MCAT Reading Com (Arco GRE GMAT LSAT MCAT Reading Comprehension Workbook):

1 of 1 people found the following review helpful. Immensely helpfulBy MannyI was looking to improve my reading comprehension skills and this book helped a lot.All the practice passages have detailed explanation about both right and wrong answers - which is very helpful.0 of 0 people found the following review helpful. Very Helpfull - buy itBy T. PopovaThis is a very helpful book on Reading Section. One of the very few available ones on the market. I don't understand why there are so many books concerning LR and AR, and almost none concerning the reading. Reading was my most difficult section (as it is for many students- passages are long time is not enough, same problem..) and if

there was more on the market about it I would have purchased it. Anyhow, this book is well written, explanatory, enough exercises. The reason why I rate it with 4, not 5 stars is because it is not LSAT specific, but it also tells about MCAT, GMAT, etc. Which is important when it comes to the length of passages in the exercise section which takes up 130 out of 180 pages from the book. There are passages of different lengths from 30 to 80 lines, covering the formats of the passages given on GMAT, MCAT, etc. But what we need for LSAT - are passages of 55 - 60 lines so we can properly time ourselves and as we all know on the LSAT - TIME IS EVERYTHING. In conclusion: helpful book - get it. P.S. If the publishers get to see that - consider improving it. 16 of 16 people found the following review helpful. Time-wasting if not skill-diminishing By A Customer I've read this book for LSAT prep. While the selection of passages is excellent, crafting of questions is simply a bad joke. To be precise, it is mostly the answer choices that makes this book time-wasting, if not skill-diminishing. The answer choices in this book are just not the kind of choices that appear in an actual test. Especially annoying is that many "right" answer choices can be right only after a very very long stretch of logic, which NEVER happens in a real test.
