Good read, but somewhat misleadingBy Caleb2016I'm an English major so I've of course ran into "What in the world are you going to do with an English degree question" a ton. I bought this book quite cheap and it arrived quickly. I was thinking the book would be a listing of jobs an English

major could consider, but instead it's more of a starting out your career book. It has tips on writing cover letters, and compiling a resum, so on and so forth. It's far from useless and worth the buy aside from my preconceived thoughts. 1 of 2 people found the following review helpful. not so helpfulBy Abbie BrownI am an English Major and a Sociology Major.
