I found this book very helpful in getting older adults to express their feelings and share stories from their pasts. This helps to build community with the other people in the group. It also helps build self esteem and friendships with others. Ms. Link has done an excellent job of presenting opportunities through these exercises to help chaplains, ministers, social workers, etc. to be able to offer encouragement and help to our older adults. This book is well worth the investment!0 of 0 people found the following
