Rosemary Blieszner, Victoria Hilkevitch Bedford : Handbook of Aging and the Family before purchasing it in order to gage whether or not it would be worth my time, and all praised Handbook of Aging and the Family:

No other reference provides such a comprehensive and timely overview of theory and research on family relationships,

the contexts of family life, and major turning points in late-life families. It includes many suggestions for theoretical and practical applications for future research on a score of important topics. This multidisciplinary survey is an invaluable library reference and teaching resource intended for upper-level undergraduate and graduate students, teachers, and practitioners for gerontologists, family scholars, psychologists, sociologists, historians, social workers, health-care providers, and policy makers.
