**Alain Fayolle, Harry Matlay : Handbook of Research on Social Entrepreneurship (Research Handbooks in Business and Management Series)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Handbook of Research on Social Entrepreneurship (Research Handbooks in Business and Management

Series):

This timely Handbook provides an empirically rigorous overview of the latest research advances on social entrepreneurship, entrepreneurs and enterprises. It incorporates seventeen original chapters on definitions, concepts, contexts and strategy, including a critical overview and an agenda for future research in social entrepreneurship. What are the forms and manifestations of social entrepreneurship? To what extent should current developments lead to a redefinition of stakeholders' strategies and roles in the quest for better consideration of the social dimension? The highly regarded group of contributors addresses these questions in some detail. They also explore social entrepreneurship from a multicultural perspective in order to highlight the diversity of social entrepreneurship forms and practices and, from a strategic perspective, to investigate the essential role played by various actors and factors in the development of social entrepreneurship. Postgraduate students and researchers studying social entrepreneurship will find this book of great interest. Social entrepreneurs and practitioners would also benefit considerably from this enriching resource. Contributors: T.F. Barr, J. Boncler, F. Brouard, G. Cajaiba-Santana, J. Defourny, A.
