Xiaowei Zang : Handbook on Ethnic Minorities in China (Handbooks of Research on Contemporary China series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Handbook on

Ethnic Minorities in China (Handbooks of Research on Contemporary China series):

This much-needed volume explains who ethnic minorities are and how well do they do in China. In addition to offering general information about ethnic minority groups in China, it discusses some important issues around ethnicity, including ethnic inequality, minority rights, and multiculturalism. In doing so, it explores questions such as: How are ethnic minorities represented in China? Are ethnic minorities' gender norms different from those of Han Chinese? How serious is ethnic inequality in education and income? How well are minority cultures and languages preserved in China? Are ethnic minorities marginalized amid China's rapid economic growth? In what ways do China's ethnic policy affect its foreign policy and international relations? The handbook reviews research on major ethnic issues in China and addresses some key conceptual, theoretical and methodological issues in the study of ethnicity in China. It offers updated research findings on minority ethnicity, consolidates knowledge scattered in different disciplines in the existing literature and provides readers with a multi-disciplinary and multi-faceted coverage in one single volume. Drawing on insights and perspectives from scholars in different continents the contributions provide critical reflections on where the field has been and where it is going, offering readers possible directions for future research on minority ethnicity in China. The Handbook on Ethnic Minorities in China is an up-to-date, comprehensive, and convenient reference, ideal for teaching and research on ethnic minorities in China. Contributors include: M. Clarke, M. Dillon, S. Du, B. Gustafsson, W. Jankowiak, H. Lai, K.Y. Law, K.-m. Lee, J. Liebold, Y. Luo, J. Ma, C. Mackerras, T. Oakes, L. Schein, B. Shurentana, B.R. Weiner, X. Zang, M. Zhou

'Among the recent works on ethnicity in China, few are as encompassing as the Handbook on Ethnic Minorities in China. Apart from containing a wide range of relevant topics covered by leading scholars in their sub-fields and presenting a spectrum of perspectives, the Handbook is accessible to readers well beyond the corps of specialists. Its articles will not only inform future scholarship, but will also provide students, journalists policy-makers and others with an empirically-based and theoretically-informed introduction to key issues.' --Barry Sautman, Hong Kong University of Science and Technology
