**David Haber PhD : Health Promotion and Aging, 4th Edition: Practical Applications for Health Professionals** before purchasing it in order to gage whether or not it would be worth my time, and all praised Health Promotion and Aging, 4th Edition: Practical Applications for Health Professionals:

0 of 0 people found the following review helpful. Great book!By LikeReadingA+ Fast delivery - received as described. Great book!1 of 1 people found the following review helpful. THE book to have as a reference for those who work with older adultsBy Bethany SchultzThis is a massive book but an easy read filled with the latest research and personal experience with older adults. This is the perfect reference shelf item for anyone who works with older adults. The humor injected throughout makes this an easy read and Dr. Haber, a truly gifted writer, sets a very relaxed and comfortable tone that isn't filled with medical jargon. This is THE book doctors should read before seeing older patients.0 of 0 people found the following review helpful. exactly as describedBy T. HorynaProduit was exactly as described, fast shipment. Would purchase from this seller in the future.

Continuing to advocate for health professionals becoming health educators and a more informed, healthier aging population, David Haber has updated this fourth edition of his respected text with discussion and analysis of major issues and topics in the field, including: A Critique of the MyPyramid Food Guide How to Change Medical Encounters into Health Encounters Descriptions of Model Health Programs A Review of the 2006 Surgeon General's Report on Second-Hand Smoke Critical Analysis of Medicare Part D The Benefits of Pet Support Life Review and Cognitive Fitness Appraisals of Complementary and Alternative Practices Innovative ideas on public policy and aging, examples of stand-out community health advocacy, and a final chapter on the future of the field complete this integrated look at our health, community, and aging. Instructor's Guide Now Available!An Instructor's Manual for this textbook is available for those professors who have adopted Health Promotion and Aging, Fourth Edition and can verify a bookstore order of 7 or more copies. Please email our Marketing Department at [marketing@springerpub.com](mailto:marketing@springerpub.com) if you have adopted this text as you will need a password to download the guide. Please provide the name and telephone number of the bookstore that ordered the textbooks. A print version of the Instructor's Guide is also available."

"David Haber is one of the true pioneers in the aging and health promotion field. This third volume of his classic text is the comprehensive text on what is currently known about aging and health promotion." Marcia G. Ory, PhD, MPH School of Rural and Public Health, Texas AM University" "...[this book] should be on the bookshelf of every student and every professor in any one of the health disciplines...[it] is a resource that pulls together everything that a health provider would need to know about promoting health and quality of life for older adults."--From the Foreword by Barbara Resnick, PhD, FAANFrom the Back Cover"Continuing to advocate for health professionals becoming health educators and a more informed, healthier aging population, David Haber has updated this fourth edition of his respected text with discussion and analysis of major issues and topics in the field, including:A Critique of theMyPyramid Food GuideHow to Change Medical Encounters into Health EncountersDescriptions of Model Health ProgramsA of the 2006 Surgeon General's Report on Second-Hand SmokeCritical Analysis of Medicare Part DThe Benefits of Pet SupportLife and Cognitive FitnessAppraisals of Complementary and Alternative PracticesInnovative ideas on public policy and aging, examples of stand-out community health advocacy, and a final chapter on the future of the field complete this integrated look at our health, community, and aging.Instructor's Guide Now Available!
