Dale a. Darling : High Waters before purchasing it in order to gage whether or not it would be worth my time, and all praised High Waters:

0 of 0 people found the following review helpful. Teaching the brilliance of resilience and the wisdom of gratitudeBy WodehousianAs someone who nearly lost a favorite uncle in the Big Thompson flood of '76, I loved this book! The author writes with masterful pacing and an engaging tone, to easily bring you into the story of a river running wild, uprooting lives and homes. In these troubled times, when we're all an eye-blink away from losing our comfortable

worlds in natural or man-made disasters, this book shows the reader how to roll with the punches and land on your feet, firmly grounded and ready to rebuild again, and even how to gracefully accept the possibility of a divine plan. It's a touching love story, too, in the larger sense beyond merely romantic. If you know someone who is on the verge of giving up, on life or love or themselves or even God, this is the book to give them. If Hollywood is listening, a wonderful movie awaits inside these pages. It's all here.

By Karen Eifler
I enjoyed the honesty of this book and feel like I got to know the Darling family a bit closer through reading it. This was an incredibly difficult journey and it was not painted as a bunch of roses. The dynamics of the mountain community they lived in fascinated me with its unique challenges. The frustrations with receiving assistance and the way each of them handled grief and stresses made the realities of surviving the flood very real to me as a reader. The love this family has for each other and for God in the center of all is quite beautiful.

By Steven Kempton Dale
What an amazing story. It has been awhile since we have touched base. I was out of the state working and heard about the flood. My thoughts turned to you and your family. I had no idea that your life was turned upside down. Your book is a wonderful story about overcoming obstacles and the love of family and friends. It was touching. Take care my friend. God Bless !!

A compelling tale of a experiencing a surprise flood of catastrophic proportions, and perspective of surviving and beginning to recover.
