Samuel Decalo : Historical Dictionary of Niger (African Historical Dictionaries, No. 72) before purchasing it in order to gage whether or not it would be worth my time, and all praised Historical Dictionary of Niger (African Historical Dictionaries, No. 72):

Written by one of the foremost authorities on West Africa, the third edition of the Historical Dictionary of Niger provides an updated and easy-to-use single-volume reference for scholars of West Africa and Third World development.

...this edition's updates to the chronology, dictionary, and bibliography justify its purchase. (Choice)...significantly expands upon the previous 1989 edition...the Recent Political Chronology...includes important historical events of the twentieth century through May, 1996...entries are...accessible...For the researcher there is an excellent and wide-ranging entry on Documentation Centers in Niger...an invaluable reference work for both scholars new to the country and for others more familiar with its peoples and history.
