ThilakHomelessness, it's a topic that's in your face, yet very easy to ignore, it come under the category of " someone else's problem!". Reading this book, makes homelessness, real and relatable; that it is about people and not statistics. Written by someone whose heart is involved and he tugs yours along for the ride.1 of 1 people found the following review helpful. A must readBy

Caleb Phillips A must read for anyone wanting to better understand homelessness in America. Easy to read, funny, and heartbreaking all at the same time. Please read it and then send a copy to your congressman.

A half-century after the "War on Poverty" of Lyndon Johnson, poverty rates remain unchanged. Scholars have advanced polarized theories about the causes of poverty, as politicians have debated how (or if) to fund welfare programs. Yet little research has been conducted where the poor are provided a platform to speak on their own behalf. While it is important to understand how economic systems affect the homeless, it is equally important to learn about the day-to-day realities faced by those who rely on public policies for survival. Drawing on the author's experience working in the homeless community, this book presents some of their stories of loss, abuse, addiction, and marginalization through interviews, observations, and ethnographic research.

"Dr. Phillips' book needs to be in the public discourse as he requires readers to consider their relationship to homelessness through his smart, insightful, and poignant argument." --Molly Wiant Cummins, St. Cloud State University  
"Josh Phillips writes with clarity, compassion, and insight about the causes and potential solutions to the problem of homelessness, eloquently advocating for policy-making that includes the voices of those most directly impacted...an inspiring read." --Suzanne M. Daughton, Southern Illinois University
