12 of 12 people found the following review helpful. Very durable and informativeBy Rob LaRosaThis map only shows the down town Chicago area, which is all I needed. What makes it great is that it has many important buildings and attractions highlighted on the map. This made my architectural walk very easy and efficient. I didn't miss a thing! This map is great for tourists, but probably not ideal for those who want to venture beyond the down town area.0 of 0 people found the following review helpful. Five StarsBy Susan P. About the AuthorBorch uses a patented lamination process to cross the folds of the map, making it easier to read and even easier to refold. The tough but non-toxic lamination material degrades to oxygen and water in a landfill environment. Before then, the map is practically indestructible in your backpack or suit coat pocket, and can even be written on temporarily with dry-erase markers.
