learning Spanish0 of 0 people found the following review helpful. Help for a beginning translatorBy kubik1287I was
required to purchase a Spanish-English/English-Spanish dictionary for a translation course I am taking. I chose this

dictionary from a list I was given mainly because of its lower cost in comparison to the others. This dictionary is SO helpful when I'm working on a translation. I especially like the entries covering idiomatic expressions and the examples of use in context, when they are present, which is not the majority of the time. While this dictionary does not beat translating with monolingual dictionaries in English and Spanish, it is an excellent resource for general, everyday use. 0 of 0 people found the following review helpful. a Spanish teachers must have By Betsy All Spanish teachers must have this for the classroom. If the school will not provide it, you MUST buy it! Worth every penny.
