Bescherelle-L'art de ConjuguerBy Nature's womanIf you struggle with conjugation of verbs, can't remember the stem of an irregular verb, or you are just unsure and would like to check yourself, this is a good book for you. I have personally found it very handy, especially as a correction tool when writing papers. Note: this is strictly a conjugation tool. There are NO definitions. The book is compact and easy to manage. (It works similar to a Thesaurus.) It also includes literary tenses of verbs (such as passe simple) that you may or may not ever need. So far, I have not run across a verb that it does not have.0 of 0 people found the following review helpful. Five StarsBy CustomerAs described
