Willard Detering Morgan : Leica manual and data book before purchasing it in order to gage whether or not it would be worth my time, and all praised Leica manual and data book:

0 of 0 people found the following review helpful. Five StarsBy Gary Geislergood1 of 2 people found the following review helpful. If you are a certain kind of geek.....By Jacques Marchandyou must buy this book! The concepts have not changed but the specific data is somewhat dated (my copy published in 1965!) Awesome reference work, not a gentle fireside read.

New York, Morgan Morgan, 1956, 8vo t.tela sovr. ill. pp. 456 con num. ill. n.t.
