A Loving Tribute to Alice and CarrollBy Arnold AsreleskyThe Lovett's assembled a marvelous Carroll collection--this large volume deals only with the two Alice books and is a living bibliography of all the manifestations of these works since their publication. No lover and collector of Carroll should be without it. Yes, it's pricey, but save your pennies and get this one if you love and collect Alice (or even dream of collecting her).

Comprises the most exhaustive checklist of materials about Lewis Carroll and Alice in Wonderland ever assembled. The book is comprised of seven chapters: English language editions of the Alice books; Translations of the Alice books; Excerpts from the books in anthologies; Alice in the arts; Parodies and spin-offs of the Alice books; Reference works and Miscellaneous.
