You have to have this book if you are in the market for old Lionel stuff, especially when shopping on Ebay. Things that many put 'vintage or rare' on in an ad, are not. Spend a few bucks here with Greenberg's, don't be a sucker on overpriced Lionel, and save a lot in the long run.

It was somewhat useful. Too bad it only gives estimates for excellent to mint condition trains. Most hobbyists actually use them. Many of us probably have good to very good condition equipment, thus, this book still leaves us guessing regarding the likely value of our stuff.

I think the pricing shown is not actual resale. Most pricing to high. From long time train guy, 60 plus years.

Market prices change every year. Toy train enthusiasts need to know what their collection is CURRENTLY worth. The Lionel Trains Pocket Price Guide 1901-2016 is packed with the latest market value information for prewar, postwar, modern, and tinsplate trains, as well as postwar boxes and sets. The book offers:
A convenient, easy-to-read presentation.
Pocket-sized format that s easy to carry.
Important pricing information when a decision draws near.
