Not CompleteBy CindyThis is not a complete book as might be assumed by the title. it is very condensed, chapters are missing and is not what I expected.0 of 0 people found the following review helpful. an incomplete "complete" guideBy dominiqueThe quality of the print is good for a 1800's

book, however the page on fails to mention that there are about 900 pages of this reprint missing. Very disappointed in this reprint.

This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high quality, modern editions that are true to the original work.
