Steven Cerio : Steven Cerio's ABC Book: A Drug Primer before purchasing it in order to gauge whether or not it would be worth my time, and all praised Steven Cerio's ABC Book: A Drug Primer:

A different drug for every letter, and a really nice illustration for each drug. I don't necessarily agree with all the comments made, but I would still recommend this to any light-hearted legalization activist. 0 of 0 people found the following review helpful. Fantastic Illustrations!!! By A Customer This clearly isn't a book for light hearted drug legalization activists. It's neither pro nor con, but does seem to offer a darker look at the effects of drug use. This book is just pure fun, with phenomenal illustrations from Steven Cerio.

Steven Cerio offers a playfully sinister look at the drug culture, written and illustrated in the style of a child's alphabet book. 62 color illustrations.
